SUMMARY

High-achieving **Computer Science (Network Security)** student with a **CGPA of 3.61** and a 4-time Dean's List record. **Cisco-certified** with strong knowledge in cybersecurity, SOC operations, network security, cloud infrastructure, and incident response. Experienced in AWS, Docker, Wireshark, and Zero Trust security projects. Proven leadership experience managing large-scale student programs involving **3,000+ participants**. Seeking a **Cybersecurity Analyst internship** to apply technical and analytical skills in a professional **SOC environment** starting **from 27 September 2026 to 26 March 2027**.

EDUCATION

Universiti Sultan Zainal Abidin (UniZA)

Bachelor of Computer Science (Computer Network Security) with honours. CGPA: 3.61

October 2023 – Present

Perak Matriculation College (KMPK)

KPM Matriculation Certificate. CGPA: 3.50

July 2021 – June 2023

CERTIFICATION

CompTIA - CompTIA SecurityX

- Acquired advanced skills in designing and implementing secure solutions, managing security operations, and applying governance, risk, and compliance strategies across complex environments.

Cisco - Introduction to Cybersecurity

- Acquired basic understanding of cybersecurity principles, network security, cyber threats, and data protection.

Cisco - CCNAv7: Switching, Routing and Wireless Essentials

- Skilled in configuring routers, switches, and wireless solution, with a focus on network traffic management.

ACHIEVEMENTS

Universiti Sultan Zainal Abidin (UniZA) Dean List Award

2023 – Present

- 4 Semester Dean List

Top 5 Winner – Hackathon Capture the Flag (UniZA X UMK)

May 2025

- Placed in the Top 5 out of 12 teams in a mixed university cybersecurity hackathon

156 KM Batam Cycling Journey in Batam, Indonesia

August 2025

- Promoting SDG 3 (Health & Wellbeing), SDG 5 (Gender Equality), SDG 7 (Clean & Renewable Energy)

PROJECT

A Zero Trust Cloud-Based Passwordless Multi-Factor Authentication and Authorization Framework using Passkey and Biometric (Degree Final Year Project)

Python, Docker, Keycloak, Cloudflare Tunnel, Visual Studio Code, Amazon Web Services, Postman

- Designed and implemented a Zero Trust authentication framework using passkey and biometric MFA.
- Conducted security analysis and threat modelling to evaluate system vulnerabilities.
- Integrated cloud-based authentication system with secure authorization protocols.
- Improved authentication reliability while reducing password-based attack risks.
- Performed basic network traffic and log analysis using Wireshark and monitoring tools to identify suspicious activities and security vulnerabilities.

Independent Hyper Secure File Sharing Cloud Storage (Personal Project)

AWS S3, IAM, Docker, Ubuntu 20.04 LTS, Apache, MongoDB, Virtual Machine.

- Designed and deployed a private cloud storage system using FileCloud Community Edition.
- Implemented secure file-sharing features including password protection, expiry dates, and download restrictions.
- Compared functionalities with NextCloud to evaluate scalability and enterprise suitability.
- Configured cloud infrastructure using Amazon Web Services including S3 storage, IAM user roles, and AES-256 encryption.
- Deployed system on multiple environments such as Windows Server, Linux (Ubuntu), and Docker containers.
- Integrated external storage and performed system setup including Apache and MongoDB Configuration.
- Applied Zero Trust concepts for secure data access and governance.

AI Chatbot via Telegram (Personal Project)

Chatbots, zapier, OpenAI GPT-4.1 mini

- Developed an interactive chatbot capable of providing automated responses.
- Designed the system for easy deployment and scalability.
- Enhanced user engagement by automating tasks, providing information, and interacting interactively.

Interactive Augmented Reality mazElectroAR project (Personal & Group Project)

Unity, ARCore/ARKit, Web AR, 3D Modelling (Blender), GPS-based AR, Mobile App Development, Blockchain (NFT Integration)

- Designed and developed multiple augmented reality (AR) experiences for marketing campaigns, retail, entertainment.
- Implemented WebAR interactive games to enhance user engagement and improve product promotion effectiveness.
- Created marker-based and location-based AR applications for events, exhibitions, and virtual experiences.
- Developed AR solutions for exhibits and galleries to enable immersive storytelling and remote accessibility.
- Analysed the role of AR in shaping the future of the Metaverse and enhancing real-world interaction.

TECHNICAL SKILLS

- **Cybersecurity:** Incident Response, Risk Assessment, Zero Trust Architecture, MFA, Security Monitoring
- **Networking:** TCP/IP, VLAN, Routing, Switching, VPN, Network Troubleshooting
- **Cloud & Infrastructure:** AWS, Docker, Virtualization, Cloudflare Tunnel
- **Security Tools:** Wireshark, Nmap, Cisco Packet Tracer, Keycloak, Postman
- **Operating Systems:** Linux, Kali Linux, Ubuntu, Windows
- **Programming:** Python, Java
- **Soft Skills:** Communication, Leadership, Team Collaboration, Problem Solving

WORK EXPERIENCE

Customer Relations Officer - TGV Cinemas Sdn Bhd

2021-2023

- Delivered exceptional customer service by assisting more than 150 guests daily with ticket purchases, seating arrangements, directions, and inquiries regarding movies, showtimes, and promotional offers while professionally resolving customer complaints and ensuring high satisfaction levels. Maintained cinema safety and cleanliness standards, managed crowd flow during peak hours, and supported daily operational activities to ensure smooth and efficient service delivery. Created and shared over 30 engaging social media content posts, monitored online customer feedback, recorded customer input, and conducted follow-ups to improve customer engagement and overall cinema experience. Applied strong communication, teamwork, problem-solving, and basic computer application skills to support operational efficiency and enhance customer satisfaction.

Private Teacher - Private Tuition

2020-2021

- Provided one-on-one and small group tutoring sessions involving 3–5 students per class, tailoring lesson plans according to individual learning needs and learning styles to improve academic understanding and performance. Prepared teaching materials, exercises, quizzes, and revision resources while continuously monitoring student progress and implementing suitable learning strategies to strengthen subject comprehension and examination performance. Successfully helped students improve academic results and confidence through effective guidance, motivation, and structured learning approaches. Developed strong communication, interpersonal, leadership, and time management skills while maintaining a positive and supportive learning environment for students.

CO-CURRICULAR INVOLVEMENT

Executive Committee of Entrepreneurship, Revenue Generation, and Funding, Uniformed Student Representative Council, UniSZA (PPBU)

2024-2025

- Managed fundraising initiatives and student development programs involving more than 3,000 students while successfully organizing and executing over six large-scale university events to increase student participation by approximately 20%. Assisted in financial planning, sponsorship coordination, and program management activities to support organizational sustainability and improve student engagement in university-level programs and activities.

Vice President, Uniformed Student Representative Council, UniSZA (PPBU)

2023-2024

- Led long-term strategic planning and student development initiatives impacting more than 500 members while strengthening campus welfare, teamwork, and organizational collaboration. Organized over six leadership and welfare programs, including parades and town hall sessions, resulting in an estimated 15% increase in student participation and engagement while improving communication and leadership development among members.

Executive Committee of Academic Affairs and Integrity

2023-2024

- Organized and coordinated more than 10 academic, technical, and cultural programs involving over 300 students to enhance student participation, communication skills, and academic engagement compared to previous years. Assisted in event planning, participant coordination, and program execution while supporting academic development and integrity-related initiatives within the organization.

Program Director of Kor-SISPA (Civil Defence Student Corps)

2023-2024

- Directed weekly training sessions, emergency preparedness activities, and co-curricular projects involving more than 40 members while strengthening discipline, teamwork, leadership, and community collaboration. Coordinated program schedules, member participation, and operational planning to improve member retention and overall effectiveness of organizational activities.

Chief Program Director of Co-Curricular Activities

2021-2023

- Planned and implemented major co-curricular and sports programs involving over 100 students while promoting leadership, teamwork, creativity, innovation, and problem-solving skills among participants. Improved participation rates and program effectiveness through efficient coordination, strategic planning, and effective time management to ensure successful execution of student development activities and events.

LANGUAGE PROFICIENCY

- **Malay (Native spoken and written)**
- **English (Proficient spoken and written)**
